

AQUADIS+ Filter

Hereafter Aquadis+ DN15 mm filter technical details

Part number = A4000325

Material = Stainless steel

Filtering surface = 460 mm2

Individual hole surface = inside 700 to 800 microns

Metallic wire diameter = 0,315 mm

This component is part of the approved water meter P1 (MID, OIML, ISO, EN) and is also covered by certificates linked to the usage with potable water.
